

# Thirteen Steps for Interview Success

Interviews are opportunities for you to showcase yourself at your best. And the key to success is thorough preparation. Here are 13 steps to ace your interview and land the job you deserve

## Before the interview:

1

### Do your homework on the business you're interviewing for

Equip yourself with knowledge about the business by studying their website, social media pages, reviews and features in news articles. It's crucial that you know exactly what the business does and that you're aware about its latest endeavours if you want to succeed.

2

### 2) Read up on the latest news in your industry

It's important that you're well informed about your field of work overall and the significant developments within it

3

### Research your interviewer

Look up your interviewer on LinkedIn to help you gauge what to expect when you meet them.

4

### Re-read the job description and convert the requirements into questions

For example, the requirement of strong experience of coding with Java, could be asked as the question *'Tell me about your experience of coding with Java'*.

5

### Know your CV

Ensure that you know exactly what you've included on it and that you can confidently answer questions about the experiences you have written about.
